NEW YORK CITY COUNCIL
RULE 2.120(a) COMPLAINT REPORT

Council Rule 2.120(a)

"The Speaker shall publish an annual report within the Council for the first Stated meeting in February disclosing complaints of workplace sexual harassment, as defined by the Council's policy or policies prohibiting discrimination and harassment established pursuant to Rule 2.110(a). Such report shall track for each preceding calendar year the number of complaints alleging workplace sexual harassment and the dispositions of such complaints. Council Anti-Discrimination and Harassment Policy (Excerpts)

"Sexual harassment, a form of gender-based discrimination, is unwelcome behavior based on a person's gender, and is prohibited by this Policy and applicable law. Sexual harassment includes harassment on the basis of sex, sexual orientation, self-identified or perceived sex, gender expression, gender identity, and the status of being transgender.

Sexual harassment includes any statement or gesture by a supervisor linking sexual favors to employment decisions. For example, this includes when a supervisor engages in unwanted sexual advances or propositions in the form of requests for sexual favors accompanied by implied or overt threats concerning an employee's job performance evaluation, a promotion, or other job benefits or detriments.

Sexual harassment also includes any unwelcome conduct of a sexual nature by anyone an employee interacts with in the course of their employment. This includes, but is not limited to: (1) physical acts of a sexual nature (e.g. touching, pinching, patting, kissing, hugging, grabbing, brushing against another employee's body, or poking another employee's body); (2) sexually oriented gestures, noises, remarks or jokes, or comments about a person's sexuality or sexual experience; and (3) displaying sexually demeaning or pornographic materials anywhere in the workplace, including on workplace computers or cell phones.

Furthermore, sexual harassment includes derogatory comments or hostile actions directed towards an employee based on their gender even where such comments or actions may not be of a sexual nature (e.g. yelling, name-calling, and interfering with an employee's ability to perform their job). This can include comments and actions based on gender stereotyping."

The Policy also states, "Harassment prohibited by this Policy may include some offensive acts or remarks even if they are not so severe that they violate federal, state, or local anti-discrimination laws."

REPORTS OF THE STANDING COMMITTEES

Report of the Committee on Contracts

Report for Int. No. 5-A

Report of the Committee on Contracts in favor of approving and adopting, as amended, a Local Law to amend the administrative code of the city of New York, in relation to criminal penalties for providing false information in contracting and maintaining information on subcontractors.

The Committee on Contracts, to which the annexed proposed amended local law was referred on January 29, 2026 (Minutes, page 290), respectfully

REPORTS:

I. INTRODUCTION

On February 11, 2026, the Committee on Contracts, chaired by Council Member Lincoln Restler, will hold a vote on two procurement reform measures: Proposed Introduction 5-A (Prop. Int. No. 5-A), sponsored by the Speaker (Council Member Menin), in relation to criminal penalties for providing false information in contracting and maintaining information on subcontractors; and Proposed Introduction 510-A (Prop. Int. No. 510-A), sponsored by Council Member Won, in relation to an online public procurement interface. On January 27, 2026, the Committee held a hearing on previous versions of Prop. Int. Nos. 5-A and 510-A. Among those who testified at the hearing were the Mayor's Office of Contract Services, advocacy organizations, and members of the public.

II. BACKGROUND

New York City operates the largest municipal procurement system in the nation, with the City procuring $42.45 billion in goods and services in Fiscal Year 2025 alone.[1] This massive contracting operation spans across numerous agencies and touches virtually every aspect of city government, from human services to infrastructure development.[2] However, the system has long been characterized by inefficiencies, transparency gaps, and vulnerability to corruption.[3]

The City's procurement process is onerous and slow, creating significant and persistent operational challenges for agencies and vendors alike. According to the Office of the Comptroller, for Fiscal Year 2025 72.64 percent of all contracts were registered late, meaning contractors had begun work before the City finalized contracts or initiated payments.[4] Focusing on human services contracts indicates a worse situation with 81.01 percent of contracts registered retroactively.[5] These delays stem from extensive paperwork requirements, rigid

review procedures, and lack of coordination across oversight agencies.[6] This forces many contractors to rely on loans and lines of credit while awaiting reimbursement.[7]

The City's current transparency systems contain significant gaps in publicly available information. While the Comptroller publishes some spending data via the Checkbook NYC website, the data provided remains general.[8] There are substantial limitations to the public's consumption of information regarding contracts awaiting registration, performance metrics, and expenditures against individual contracts.[9] Separately, in an attempt to address concerns regarding transparency around city contracting, MOCS created PASSPort Public.[10] PASSPort Public is web portal meant to provide information data around vendors contracting with the City as well as information about different City solicitations for services.[11] However, despite the creation of this portal, many contract documents remain scattered across agency websites rather than consolidated in a central location.[12] PASSPort Public also does not display contract history.[13] The combination of these factors make contract performance analysis difficult.

Subcontractor Transparency

Additionally, the need for greater subcontractor transparency has been underscored by a series of fraud investigations involving City-funded homeless services providers.

In 2020, federal and City officials raided the offices of one of the City's largest homeless shelter operators, after investigators uncovered a network of at least six subcontractors that did not appear to provide the supplies and services listed on invoices submitted to the City.[14] The nonprofit had received nearly $500 million in City contracts over the course of several years, yet the Administration lacked adequate systems to trace the flow of funds to subcontractors or verify their legitimacy.[15]

In 2021, a New York Times investigation revealed that the City relied on a landlord with a history of severe building violations including rat infestations and lead paint to rapidly open new homeless shelters.[16] In at least two instances, the landlord also required nonprofit operators to hire his own maintenance company without competitive bidding, circumventing city rules designed to control costs and ensure service quality.[17]

In 2022, the CEO of one of the City's largest shelter providers pleaded guilty to a federal bribery and kickback scheme, admitting to accepting over $1.2 million from contractors doing business with his organization.[18]

A 2024 Department of Investigation report examined 51 nonprofit shelter providers and found "hundreds of governance and compliance concerns," including multiple instances where nonprofit executives had financial stakes in subcontractors providing food, security, and other services at the shelters they managed.[19]

These cases illustrate the risks created by the current system's limited visibility into subcontractor relationships and the need for enhanced disclosure requirements.[20]

III. Legislative Analysis

Prop. Int. No. 5-A (Speaker Menin) – A Local Law to amend the administrative code of the city of New York, in relation to criminal penalties for providing false information in contracting and maintaining information on subcontractors

This bill would update penalties for providing false, deceptive, or fraudulent statements regarding the qualifications of any bidder on a City contract. Monetary penalties currently sit between $100 and $1,000.[21] The bill would update such penalties to a minimum of $1,000 and a maximum of $25,000. Because the provision of false statements regarding a bidder also involves the potential of time incarcerated, with such time capped at six months, the bill would also specify that this is a misdemeanor.

In addition to updating the penalty for providing a false statement regarding a bidder to a City contract, the bill would also create a new violation for providing false information regarding a subcontractor working with a prime contractor on a City contract. This violation mirrors the prohibition on false statements around bidders, subjecting violators to fines of between $1,000 and $25,000. However, there is no potential for incarceration under this new provision.

Finally, the bill would require additional information be provided regarding subcontractors when a subcontract is submitted for agency approval. Specifically, it would require that the names of the principal owners and officers of the subcontractor, their current business addresses and telephone numbers, any other names the subcontractor has operated under within the last five years, the contractual obligations between the subcontractor and prime contractor, and information regarding the status of the subcontractor as a minority-owned or women-owned business enterprise all be provided. This is to provide greater transparency into what subcontractors are working on City contracts. The bill as amended removed requirements on providing information on the affiliates of subcontractors.

Prop. Int. No. 510-A (Won) – A Local Law to amend the administrative code of the city of New York, in relation to an online public procurement interface

This bill would require the City Chief Procurement Officer (CCPO) to ensure that one or more searchable, publicly accessible online interfaces provide comprehensive information about city procurements that exceed the City's small purchase limits. Such interface would need to provide information at key stages of the procurement process, including anticipated requirements prior to solicitation, solicitation summaries, contract award details, and total expenditures upon completion of the contract.

The bill would require this information to be published within 30 days of the relevant procurement event, except that pre-solicitation information would need to be published at least 15 days before the release of a solicitation document. The CCPO would retain discretion to determine the format and organization of the online interfaces and could direct that specific information be omitted where publication would compromise public safety, reveal confidential information, or interfere with a law enforcement investigation. This is a change from the version previously heard by the Committee, which would have required information to be published within 10 business days of the relevant procurement event with pre-solicitation information published at least 30 days before a solicitation was released.

The original version of the bill also would have required additional disclosures about the funding of an award, but the amended version simplifies these requirements to an estimated procurement value and anticipated number of contracts to be awarded.

Report of the Committee on Health

Report for Int. No. 437-A

Report of the Committee on Health in favor of approving and adopting, as amended, a Local Law to amend the administrative code of the city of New York, in relation to guidance relating to the child care program permitting process.

The Committee on Health, to which the annexed proposed amended local law was referred on January 29, 2026 (Minutes, page 408), respectfully

REPORTS:

I. INTRODUCTION

On February 11, 2026, the Committee on Health, chaired by Council Member Lynn Schulman, voted on Introduction Number ("Int. No.") 437-A, sponsored by Council Member Schulman, in relation to guidance relating to the child care program permitting process. The Committee voted on Int. No. 437-A by a vote of 5 in the affirmative and zero in the negative, with zero abstentions.

On January 27, 2026, the Committee on Health heard Int. No. 437 and received testimony from the Department of Health and Mental Hygiene (DOHMH) and interested stakeholders.

I. LEGISLATIVE ANALYSIS

a. Int. No. 437-A

This legislation would seek to improve transparency and accountability for the issuing of permits to child care facilities, particularly those that seek an exemption under Health Code §§ 47.41(b)–(c). Those sections limit the siting of child care facilities to only certain floors of multi-story buildings, unless additional requirements are met.[1] Specifically, the Health Code provides that such exemptions "may" be allowed by DOHMH "where the Department of Buildings (DOB) and the Fire Department (FDNY) or other appropriate government entities have approved such use and the Department has approved the applicant or permittee's evacuation plan."[2] While the above specified sections of the Health Code exist for the health and safety of children, stringent requirements for child care facilities have helped to drive up costs, thereby reducing access to care for low-income families.[3]

This bill would require DOHMH to provide guidance to prospective child care programs applying for a permit pursuant to Article 47 of the Health Code. The required guidance would include a visual representation of the permitting process and include information relating to any required license, approval, or permit from DOHMH or another agency, as well as the order in which licenses, approvals, or permits must be obtained. The bill would also require any guidance or updates to such guidance to be posted on relevant City websites in the designated citywide languages and submitted to the Mayor and the Council.

Since its initial hearing, the bill was amended to require DOHMH, rather than the Board of Health, to issue child care permitting guidance in accordance with Article 47 of the Health Code. Additionally, the bill was amended to require DOHMH's child care permitting guidance to include a visual representation of the permitting process and include information relating to any required license, approval, or permit from DOHMH or another

agency, as well as the order in which licenses, approvals, or permits must be obtained. Lastly, the bill was amended to require DOHMH to post updated child care permitting guidance on City websites in the designated citywide languages, and to provide any updated guidance to the Mayor and to the Speaker of the Council.

Int. No. 437-A

By Council Members Schulman, Narcisse, Louis, Gutiérrez and Dinowitz

A Local Law to amend the administrative code of the city of New York, in relation to guidance relating to the child care program permitting process

Be it enacted by the Council as follows:

Section 1. Chapter 13 of title 17 of the administrative code of the city of New York is amended by adding a new section 17-1312 to read as follows:

§ 17-1312 Guidance relating to the child care program permitting process. a. The department shall, in coordination with any other agency as it deems necessary, provide guidance to an applicant for a permit for a child care program pursuant to article 47 of the health code on the requirements for obtaining such permit. Such guidance shall include a visual representation of the process and include the following information: any required license, approval, or permit from the department or any other agency and the order in which each such license, approval, or permit must be obtained. The inadvertent failure to include any such license, approval, or permit

in guidance provided pursuant to this subdivision shall not invalidate the requirement to obtain such license, approval, or permit.

b. The commissioner shall post on the department's website, and update as necessary, the guidance required pursuant to subdivision a of this section and, as relevant, include a description of any such update or other change made to such guidance. Such guidance and updates shall be provided in the designated citywide languages defined in section 23-1101 and also be posted on any other city website where the department makes permitting information available. The department shall submit such guidance and any subsequent updates to the mayor and the speaker of the council.

§ 2. This local law takes effect 90 days after it becomes law.

Report of the Committee on Sanitation and Solid Waste Management

Report for Int. No. 18-A

Report of the Committee on Sanitation and Solid Waste Management in favor of approving and adopting, as amended, a Local Law in relation to a pilot program for power washing machines to clean sidewalk surfaces in commercial corridors.

The Committee on Sanitation and Solid Waste Management, to which the annexed proposed amended local law was referred on Sanitation and Solid Waste Management on January 29, 2026 (Minutes, page 294), respectfully

REPORTS:

I. INTRODUCTION

On February 11, 2026, the Committee on Sanitation and Solid Waste Management ("the Committee"), chaired by Council Member Justin Sanchez, voted on Int. No. 18-A, in relation to a pilot program for power washing machines to clean sidewalk surfaces in commercial corridors, sponsored by Majority Leader Shaun Abreu. The Committee previously heard Int. No. 18 at a hearing on January 30, 2026.[1]

II. BACKGROUND

Under the NYC Administrative Code ("Ad. Code"), it is unlawful for any person to litter, sweep, throw, or cast ashes, garbage, paper, dust, or other refuse of any kind, into or upon any street or public place, vacant lot, air shaft, areaway, backyard court, park, or alley.[2] Property owners, regardless of whether they are a public or private party, are responsible for keeping the area adjacent to the building perimeter, i.e., sidewalks including natural elements thereon and extending 18 inches from the curb into the street, clean and free from obstruction and nuisance.[3] The Ad. Code also prohibits anyone from allowing "swill, brine, offensive animal matter, noxious liquid, or other filthy matter of any kind" to fall onto a public space.[4] Property owners are generally responsible for injuries resulting from the negligent maintenance of sidewalks.[5]

From November 1 until March 31 during all hours and between 11 a.m. and 7 p.m. in other months, sidewalk washing is not permitted, unless necessary to protect the health and safety of the public.[6] The Ad. Code permits DSNY to use water as necessary for the flushing or washing of public streets, where the Commissioner of the

NYC Department of Environmental Protection ("DEP") has determined a sufficient water supply exists,[7] however, the respective property owner remains responsible for keeping their sidewalk clean.[8] DSNY would not be permitted to source water for power washing operations from a hydrant, since the Ad. Code prohibits the use of hydrants for water supply except in the case of a fire or where otherwise authorized by law.[9] City rules also describe specific hose nozzle requirements for sidewalk cleaning, depending on the type of property adjacent to the sidewalk.[10] Under drought conditions, additional water usage restrictions may apply to City agencies, like in November of 2024, where the administration of former Mayor Eric Adams, facing a rainfall deficit of over 8 inches, was forced to declare a drought warning.[11] Under a drought warning, DSNY is directed to suspend street flushing activities and reduce fleet washing.[12]

Any person, such as a City resident or a DSNY worker, may not discharge into storm sewers any water unless the water discharge has been authorized via DEP rule.[13] DSNY also may not discharge water that is above 150°F,[14] nor substances that would cause any sewer line or drain to become obstructed.[15] Water discharge may not violate the City's permit issued by the U.S. Environmental Protection Agency via the National Pollutant Discharge Elimination System Program ("NPDES").[16] The City's NPDES Permit authorizes certain non-stormwater discharges including discharges from potable water sources and residual street wash water. "Municipal and agricultural waste discharged into water" is categorized as a pollutant.[17] Sometimes power wash operators use barriers to contain the water.[18]

III. LEGISLATION

Int. No. 18-A would require that by April 1, 2027, DSNY implement a pilot program for the use of power washing machines to clean and remove odors and spills from sidewalk surfaces in commercial corridors. DSNY would be required to select a pilot program location in each borough, for a 5-block distance on streets with access to mass transit and high pedestrian traffic. The bill would also require DSNY to report on such pilot program by December 1, 2027.

This local law would take effect immediately.

UPDATE

On Wednesday, February 11, 2026, the Committee adopted Int. No. 18-A by a vote of 8 in the affirmative, 0 in the negative, and 0 abstentions.

FISCAL YEAR IN WHICH PROPOSED LOCAL LAW WOULD FIRST BECOME EFFECTIVE: 2026

FISCAL YEAR IN WHICH FULL FISCAL IMPACT ANTICIPATED: 2027

IMPACT ON REVENUES: It is estimated that there would be no impact on revenues resulting from the enactment of this legislation.

IMPACT ON EXPENDITURES: It is estimated that there would be additional costs to the DSNY associated with establishing and implementing of the pilot program and the preparation of a final evaluation report. Such costs could include, but not be limited to, the purchase or rental of power washing equipment, staffing and training, water and utility usage, maintenance, and administrative expenses related to program oversight and reporting. Because the scope, locations, and operational details of the pilot program have not yet been determined, the fiscal impact cannot be quantified at this time.

Be it enacted by the Council as follows:

Section 1. a. Definitions. For purposes of this local law, the following terms have the following meanings:

Block. The term "block" means that portion of the sidewalk between the property line and the curb, running the length of each side of a street, between the boundaries of the corner areas at either end.

Power washing machine. The term "power washing machine" means a machine that uses a high-pressure stream of heated water to remove dirt and debris from outdoor surfaces.

b. Pilot program development. No later than April 1, 2027, the department of sanitation shall establish a pilot program for the use of power washing machines to clean and remove odors and spills from sidewalks in a commercial corridor. Such pilot program shall have a duration of no less than 6 months. The department of sanitation, in consultation with the department of environmental protection, shall select no less than 1 location per borough for the pilot program. Each such location shall consist of no less than 5 contiguous blocks of a street with access to mass transit and high levels of pedestrian traffic. Such pilot program shall comply with rules of the department of environmental protection regarding disposal of wastewater.

c. Reporting. No later than December 1, 2027, the department of sanitation shall submit to the mayor and the speaker of the council a report on the power washing pilot program. Report of the Committee on Cultural Affairs, Libraries and International Relations in favor of approving a Resolution calling on the United States Congress to respect the true history and significance of national park sites, including the Stonewall National Monument.

The Committee on Cultural Affairs, Libraries and International Relations, to which the annexed preconsidered resolution was referred on February 12, 2026, respectfully

REPORTS:

I. Introduction

On Thursday, February 12, 2026, the Committee on Cultural Affairs, Libraries and International Relations, chaired by Council Member Nantasha Williams, will hear and consider Preconsidered Resolution Number (Res. No.) 269, sponsored by Council Members Chi Ossé, Justin Sanchez, The Speaker (Council Member Julie Menin), and Council Members Nantasha Williams, Tiffany Cabán, Lynn Schulman, and Crystal Hudson, which would call on the United States Congress to respect the true history and significance of national park sites, including the Stonewall National Monument.

II. Background

Preconsidered Res. No. 269

The administration of President Donald J. Trump has added June 14, which is President Trump's birthday as well as Flag Day, to the 2026 calendar for United States (U.S.) national parks as a free admission day, while simultaneously removing Martin Luther King Jr. Day and Juneteenth as free admission days.[1] Further, an Executive Order by the President has caused permanent displays, materials for distribution, and signage at the national park sites throughout the U.S. to be altered to align with the President's priorities.[2] This Executive Order has stripped the National Park Service's Stonewall National Monument website of any mention of transgender

individuals, along with removing the "T" and "Q" from "LGBTQ" references.[3] Most recently, a Trump administration directive has caused the removal of the Pride flag from Stonewall's grounds.[4]

Accordingly, this Committee recommends its adoption.

(The following is the text of Res. No. 269:)

Preconsidered Res. No. 269

Resolution calling on the United States Congress to respect the true history and significance of national park sites, including the Stonewall National Monument.

By Council Members Ossé, J. Sanchez, The Speaker (Council Member Menin), and Council Members Williams, Cabán, Schulman, Hudson and Dinowitz.

Whereas, On March 27, 2025, President Donald J. Trump issued an Executive Order entitled "Restoring Truth and Sanity to American History," noting that "[o]ver the past decade, Americans have witnessed a concerted and widespread effort to rewrite our Nation's history, replacing objective facts with a distorted narrative driven by ideology rather than truth"; and

Whereas, The Executive Order decries the "historical revision" that has caused "our Nation's unparalleled legacy of advancing liberty, individual rights, and human happiness [to be] reconstructed as inherently racist, sexist, oppressive, or otherwise irredeemably flawed"; and

Whereas, The Executive Order has been applied to permanent displays, materials for distribution, and signage at the national park sites throughout the United States (U.S.); and

Whereas, New York City (NYC) residents are privileged to have 12 national park sites, which are the African Burial Ground National Monument, Federal Hall National Memorial, Gateway National Recreational Area, Castle Clinton National Monument, Governors Island National Monument, Saint Paul's National Historic Site, Ellis Island National Immigration Museum, Statue of Liberty National Monument, Stonewall National Monument, Hamilton Grange National Memorial, General Grant National Memorial, and Theodore Roosevelt Birthplace; and

Whereas, NYC's Stonewall National Monument pays homage to the Stonewall Uprising of June 1969, when members of the LGBTQIA+ community spoke out forcefully and powerfully to demand their rights; and

Whereas, In an effort to make sure that federal initiatives are aligned with the Trump administration's broad "restoring sanity" agenda, the administration has issued additional Executive Orders, which call for eliminating the idea of gender identity from federal programs, projects, and sites and which have, consequently, stripped the National Park Service's Stonewall National Monument website of any mention of transgender individuals, along with removing the "T" and "Q" from "LGBTQ" references; and

Whereas, In February 2025, The Stonewall Inn and the Stonewall Inn Gives Back Initiative issued a joint statement, saying that the Trump administration's "decision to erase the word 'transgender' is a deliberate attempt to erase our history and marginalize the very people who paved the way for many victories we have achieved as a community" and further noted that the Trump administration's "blatant act of erasure not only distorts the truth of our history, but it also dishonors the immense contributions of transgender individuals—especially transgender women of color—who were at the forefront of the Stonewall Riots and the broader fight for LGBTQ+ rights"; and

Whereas, Additionally, a January 21, 2026, memo from the U.S. Department of the Interior (DOI), which governs the National Park Service (NPS), stated that "only the U.S. Flag, flags of the DOI, and the POW/MIA flag will be flown by the NPS" in spaces that the NPS manages; and

Whereas, This memo was the cause for the recent removal of the Pride flag that had long flown at the Stonewall National Monument; and

Whereas, The removal of the Pride flag has resulted in considerable concern, protest, and calls for its re-raising from many New Yorkers; and

Whereas, Further, according to the NPS, the Trump administration has added June 14, which is President Trump's birthday as well as Flag Day, to the 2026 calendar for U.S. national parks as a free admission day; and

Whereas, According to the NPS, the Trump administration simultaneously has removed Martin Luther King Jr. Day and Juneteenth as free admission days from the 2026 calendar; and

Whereas, The elimination of Martin Luther King Jr. Day and Juneteenth as free admission days has been viewed by some political, intellectual, and cultural leaders as the Trump administration's using its broad "restoring sanity" agenda outlined in the Executive Order to halt a national effort to come to terms with past racism in the U.S. and to honor African American history and the accomplishments of Black Americans; and

Whereas, The elimination of these two days as free admission days can be seen as disrespectful to the African American community and indeed to any Americans who might otherwise have chosen to celebrate Martin Luther King Jr. Day and Juneteenth at our nation's national parks; and

Whereas, It is fitting that all New Yorkers, regardless of race, ethnic background, or gender identity, be able to celebrate respectfully the history and accomplishments of all the American people when visiting federally operated national park sites at home in NYC and when visiting national parks around the country; now, therefore, be it

Resolved, That the Council of the City of New York calls on the United States Congress to respect the true history and significance of national park sites, including the Stonewall National Monument.

Pursuant to Rule 8.60 of the Council, the Majority Leader and Acting President Pro Tempore (Council Member Abreu) called for a voice vote. Hearing those in favor, the Majority Leader and Acting President Pro Tempore (Council Member Abreu) declared the Resolution to be adopted.
